Prop 1 provides more classroom space so that our kids have opportunities to learn, and ensures students are safe.

A YES Vote for our Kids, Schools and Community:

Prop 1 will address the district's most urgent needs, while reducing overcrowding. This plan was created by a group of 40 parents, community members, business owners and neighbors, not by politicians and administrators. It reflects what our students need and what our community wants.

Top 3 Reasons to Vote Yes for Highline and Support the Bond:

- 1) **Ends overcrowding.** It relieves overcrowded schools and creates more classroom space to lower elementary class size.
- 2) **Makes students safer.** It invests in security monitoring and centralized locks in every school and replaces buildings that are not up to today's safety standards.
- 3) **Takes a smart, efficient, long-term approach to school excellence.** The bond prioritizes our schools' most urgent needs and keeps costs to taxpayers low by tackling problems in phases. It will save money in the long run by dealing with problems now when they are cheaper to fix. And we will be eligible for state matching funds to make sure our local investment goes even further.

REGISTER TO VOTE BY OCTOBER 10th AT www.vote.wa.gov

VOTE YES ON PROP 1 BY NOVEMBER 8TH!
